international intervention in internal wars has gained rhetorical legitimacy in the post cold war period but in practice it has remained problematic response to these conflicts has remained mainly diplomatic and military and belated is there anything international actors can do to prevent or at least ameliorate such conflicts are conflict prevention measures already being attempted and sometimes succeeding so well that we are unaware of their effectiveness if so what can we learn from them in this book robert j muscat a veteran international development expert who has worked in south america south and southeast asia east africa and the balkans attempts to answer these questions drawing on the work of others as well as his own extensive experience he reviews the accrued insights into the causes of internal conflict he examines nine cases in which the work of development agencies exacerbated or ameliorated the root causes of conflict this permits some generalizations about the efficacy or deleterious effects of development programs and of their futility when the conflict prevention dimension of international assistance efforts is ignored

the 1994 convention on the safety of united nations and associated personnel safety convention was the first multilateral convention to deal specifically with the protection of personnel engaged in peace operations it should be viewed against the background of the increasingly volatile environments in which peace operation personnel were required to operate at the beginning of the 1990s an optional protocol extending the automatic application of the safety convention to new categories of operation was adopted in december 2005 protection which a host government is responsible for securing for personnel in peace operations may be categorised as general and special protection the former includes for example human rights law and international humanitarian law the latter comprises privileges and immunities accorded to agents of states or organisations the contribution of the safety convention is mainly one of interstate penal law co operation states parties are obligated to co operate in order to effectively prosecute the perpetrators of stipulated crimes the protection afforded by the safety convention may therefore be categorised as being part of an emerging legal regime against impunity an effective protection needs to address the specific challenges surrounding peace operations some of these challenges identified in this study are related to the interplay between the rules of peace and war as well as responsibility and accountability of protected personnel it is also contended that there is a need for an effective implementation of existing rules and a careful development of so called status of forces agreements applicable in peace operations

three plays translated by wayne ambler and thomas l pangle in these three raucous comedies mortals outwit and even replace zeus and other olympian deities of the greek pantheon as aristophanes provokes laughter at the foibles of gods and men he arouses wonder at our human need for the divine the three comic heroes in the plays included here raise the questions of

whether there are gods who they might be how powerful they are and how they might be changed or eliminated although the precise form of such questions changes from age to age these are questions that are inseparable from political life and they certainly are powerfully present in our own day great theorists and architects of the modern liberal state designed its contours partly with an eye on the goal of diminishing the role of religion in the public square not unlike our three comic heroes they wanted to reduce dependence on zeus and his priests in his place and like our three heroes they sought peace wealth and human rulers liberated from exaggerated piety and nowadays the so called new atheists are pressing the case that it is high time for a final defeat and elimination of the powers of darkness that in their view have cost us so much blood and treasure aristophanes was not a modern liberal still less would he agree with the new atheists advocacy of universal public atheism he does however put dissatisfaction with the gods at the center of the three plays included here does bestow victories on the human critics of those gods and does invite us to think with him about the justice of their causes the tactics behind their victories and the limits of their successes from the introduction

in recent years there has been a tendency to intervene in the military political and economic affairs of failed and failing states and those emerging from violent conflict in many cases this has been accompanied by some form of international judicial intervention to address serious and widespread abuses of international humanitarian law and human rights in recognition of an explicit link between peace and justice a range of judicial and non judicial approaches has been adopted in recognition of the fact that there is no one size fits all model through which to seek accountability this book considers the merits and drawbacks of these different responses and sets out an original framework for analysing transitional societies and transitional justice mechanisms taking as its starting point the post second world war tribunals at nuremburg and tokyo the book goes on to discuss the creation of ad hoc international tribunals in the 1990s hybrid mixed courts the international criminal court domestic trials truth commissions and traditional justice mechanisms with examples drawn from across the world including the former yugoslavia rwanda cambodia timor leste sierra leone uganda and the drc it presents a compelling and comprehensive study of the key responses to war crimes peace and justice is a timely contribution in a world where an ever increasing number of post conflict societies are grappling with the complex issues of transitional justice it will be a valuable resource for students scholars practitioners and policy makers seeking to understand past violations of human rights and the most effective ways of addressing them
